**NCEES announces 2009 approved calculator list**

The National Council of Examiners for Engineering and Surveying (NCEES) has approved the following list of calculators for use in the April and October 2009 exam administrations:

- Casio:** All **fx-115** models. Any Casio calculator must contain **fx-115** in its model name.
- Hewlett-Packard:** The **HP 33s** and **HP 35s** models, but no others
- Texas Instruments:** All **TI-30X** and **TI-36X** models. Any Texas Instruments calculator must contain either **TI-30X** or **TI-36X** in its model name.

Calculators not meeting the above criteria are not permitted in the exam room. Candidates are encouraged to ensure that their calculator is on the approved list before reporting for the exam.

“The 2009 list is the same as last year’s, which was well-received by examinees, proctors, and licensing boards,” explained Tim Miller, P.E., NCEES director of exam services. “NCEES felt that the list continued to meet the need to protect exam integrity, while still offering flexibility.”

The approved calculator list and other exam-related information are available at [www.ncees.org](http://www.ncees.org).

**About NCEES**

NCEES is a national nonprofit organization composed of engineering and surveying licensing boards representing all U.S. states, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands. An accredited standards developer with the American National Standards Institute, NCEES develops, scores, and administers the examinations used for engineering and surveying licensure throughout the United States. NCEES also provides services facilitating professional mobility for licensed engineers and surveyors. Its headquarters is located in Clemson, South Carolina.
