The practice of construction staking falls within the definition of land surveying as defined in GS 89C-3(7)a.2. and shall be done under the responsible charge of a Professional Land Surveyor.

Further reference is made to the Board Policy "3D MODELING FOR GRADING AND STAKE-OUT," Policy Number: BP-0607-2 Rev. 1 that states as follows:

"The creation and design of the controls, profiles, and cross sections for the electronic data used in the Digital Terrain Models for the purposes of earthwork grading and stake-out is within the definition of the practice of land surveying and engineering and shall be done under the responsible charge of a Professional Engineer or Professional Land Surveyor."
