Mr. Ritter informed the Board that the annual renewal effort is at a cost of approximates fifty thousand dollars. He informed the Board that the statute requires renewals to be mailed out by November 30th of each year. He further detailed staff efforts to minimize the number of actual renewal notices which need to be mailed. Such efforts include multiple emailed notices. He explained that any efforts to modify the process will have no impact 2020 budget due to the proximity to the November 30th date. Extensive discussion ensued. Members considered factors such as the number of online renewals, late penalties, and the methods and effectiveness of emailed reminders.

In an effort to ascertain whether there is flexibility to modify the process to make it more economical, while staying within the confines of the statute, Mr. Logsdon read N.C. G.S. 89C and noted the requirements contained therein. Mr. Logsdon suggests the possibility of an AG ruling. Mr. Ritter states that he has an upcoming executive director’s meeting. Mr. Logsdon introduced Ms. Lori Daniels, the internal auditor. Mr. Logsdon provided background regarding the engagement letter and how certain items agreed to in the engagement letter prompted the audit in an effort to make sure the items agreed to were accurate. Ms. Daniels provided an oral summary of the audit. Notably, she spoke about the segregation of duties and the unique challenges of such segregation of duties in a small organization. The resulting draft of the policy manual was discussed, and it was noted that the Board operates as an organization with a repeatable organizational structure. Improvements in efficiencies geared toward reduction of the storage of papers and improvements for automated tracking were recommended. Ms. Daniels suggested formalizing controls to translate and transfer knowledge for unexpected personnel changes.

Mr. Zoutewelle recused from the Declaratory Ruling, temporarily leaves the meeting by turning off his video feed. Chair Shields turns the meeting over to Board Counsel, David Tuttle, for introduction of the matter. Mr. Tuttle welcomed Mr. Spielberg, attorney for DSM Engineering Plastics, Inc., and summarized restrictions contained in G.S. 89C as it relates to the use of the word “engineering” in a business name. Mr. Tuttle detailed efforts between the staff and Mr. Spielberg to resolve the issue prior to the request for a declaratory ruling. He stated that those efforts resulted in a determination that the core issue is a naming issue which staff determined could be resolved by use of a d/b/a. However, DSM Engineering Plastics, Inc. considered such remedy to be a hardship that would negatively impact DSM’s global operations. Mr. Tuttle further explained the options available to DSM when requesting a declaratory ruling, he noted the company’s patience and consideration of the ruling and noted that company is not seeking an oral hearing at this time. Mr. Tuttle turns the matter back over to Chair Shields. Chair Shields opened the matter for discussion.
Extensive discussion ensued related to the Board’s ability to interpret G.S. 89C without arriving at an arbitrary and capricious result. Mr. Logsdon made a motion to issue a declaratory ruling as to whether the company can use the word “engineering” in the company name. The motion was seconded by Mr. Care. The Board voted and it was unanimously approved to issue a declaratory ruling. Discussion resumed with a focus on the ruling. Note: Mr. Fairbanks temporarily left the meeting. Committee Reports

Engineering Committee – Chair Hoyle

Electronic Signature – Mr. Hoyle informed the Board that the committee sought guidance from and agreed with Board Counsel, David Tuttle, regarding the challenges to the validity of the questioned electronic signature process. Mr. Tuttle explained that his efforts, in this case as with every case when his input is requested to substantiate an electronic signature process, included substantial efforts to understand and determine the process’ integrity to be consistently reliable, certifiable, and a process which conforms to the high standards for individuals in the engineering and surveying professions. In this case such efforts included discussions with the software vendor. Following discussion, Mr. Tuttle assured the Members that efforts to assist the requestor is ongoing and it is expected that the eventual outcome will be positive. Per Mr. Hoyle, the committee agrees with Mr. Tuttle’s assessment.

Synoptic Engineering – Mr. Hoyle reported that Synoptic Engineering, LLC requested a nonobjection letter. He asked Mr. Tuttle to clarify the issue for the Board. There was a brief discussion. Mr. Mazanek, as had been directed by the committee, will offer the company the option of using a d/b/a that does not include the word “engineering.” No action is required by the Board.

Resident Professional in Office – As an information item, Mr. Hoyle informed the Board that Mr. Tuttle has written an article to help clarify the issues of a “Resident Professional in Office” in the current environment. Both the Surveying Committee and the Engineering Committees are reviewing the matter.

Surveying Committee – Chair Logsdon

Exam Transition - Mr. Logsdon informed the Board that the transition from paper and pencil exams to computer-based testing is complete. He also shared that there has also been an increase in the number of applicants for the surveying exam. The first of the computer-based exams are scheduled for October 5th and October 26th. Mr. Logsdon explained how the State Specific Exam will manage Part B (laws, rules, and regulations) and Part C (drainage). Both parts are being combined in the computer-based version. Historically, applicants were required to pass both Part B and Part C and there have differences in the past/fail rate between Part B and Part C. Applicants generally have a higher pass rate for Part B. Applicants who have passed Part B but not Part C will be permitted to take the paper and pencil Part C. However, this exception will only be available to those applicants until December 31, 2021. Those individuals are not precluded from taking the computer-based exam.

Map Reviews – Mr. Logsdon stated that staff and the Surveying Committee reviewed examples and criteria to ensure consistent determinations.

Mecklenburg Surveyors Meeting – Mr. Zoutewelle attended this meeting and returned with discussion topics related to the use of copyrights to avoid old surveys ending up on MLS and erroneously relied on as representing current conditions. Mr. Logsdon reminded the Board that this issue had been reviewed by an outside counsel who indicated that some elements of a survey are subject to copyright while other elements, such as information on a map, are not. Mr. Logsdon will draft a statement for review by both committees and presentation to the Board for approval.

September 16, 2020 2
The committee also addressed the issue of the use of GIS maps by sheriff’s departments to settle property disputes. In one instance, a GIS map was used to determine that a driveway encroached on another’s property and resulted in the rightful owner being charged with trespass. Mr. Benton and Mr. Care will co-author a newsletter article to address the issues associated with unlicensed individuals relying upon and identifying property lines using sources other than actual surveys. Board Counsel, David Tuttle, has been provided with contact information for the individual who questioned such practices and will inform the individual of the progress and proposed efforts to address the matter.

Resident Professional in Office – The committee reviewed a draft article by Board Counsel, David Tuttle. Committee members are in agreement with Mr. Tuttle’s positions and interpretations. The committee discussed the possibility of revisions to the Board Rules to permit resident licensees to be the responsible licensee for multiple NC locations as is currently permitted for out-of-state locations.

Mr. Ritter provided information regarding the logistics of the upcoming surveying exams and praised the efforts of Stephanie Bryant, whose duties were recently expanded to include oversight of the surveying applicants and licensees. Ms. Bryant’s independent efforts directly impacted the increase in the number of applicants to take the exam.

5. NCEES Activities – Executive Director

Mr. Ritter gave an update regarding the Zone Meeting. He noted that everything was approved. He informed the Board that our Board’s candidate, Mr. Zoutewelle, did not secure the position; however, it is anticipated that he will seek the VP position in the Spring. All committee meetings will be virtual for the next year. Member Board Assembly Meeting may or may not occur. The 2021 Zone Meeting is still slated to occur but obstacles to finalizing the arrangements include hesitancy of vendors to sign agreements that far in the future. Mr. Brendon Blair, public guest, asked “what type of vendors are you looking for?” Mr. Blair was acknowledged and informed that hotel vendors are being sought. Discussion ensued regarding the pandemic’s impact to the Board’s opportunity to host the 2021 zone meeting. Mr. Ritter noted that the PE Exam has also been adversely impacted. It was canceled for April; however, the exam is scheduled to be hosted two consecutive days in October. 270 applicants are scheduled for a Thursday and 350 for the Friday. The Corey Convention Center in Greensboro has agreed to host permitting the booking of multiple 25 person rooms which aligns with the current North Carolina guidelines.

4. Board Secretary Report – Executive Director and Board Secretary
Mr. Ellington stated that he had reviewed the June budget, informed the Board that he found everything to be in order, and requested that Mr. Ritter provide an overview. Mr. Ritter informed the Board that revenue was slightly down due to small decreases in the numbers for firm and individual renewals. This was offset by a decrease in expenditures for staff and Board travel. Mr. Ritter provided explanations for the slight variances between actual and budgeted revenue and expenditures. He stated that the meeting with the internal auditor had been rescheduled from early July to August due to the auditor experiencing a medical emergency.

Mr. Ritter and Mr. Logsdon provided some details regarding the outcome of the internal audit and offered some possibilities as to how the recommendations could impact the Board and staff. Mr. Benton would like to pursue legislative changes in order to have more oversight of unlicensed practice. He directs staff to gather information regarding the possibility. New Business

- Policy Revision - BP 1005-4

Wetlands policy discussed. For restricted use areas on properties with wetlands, monuments are not required to be set at every turning point but it is required that the area be surveyed and tied to the outside boundary line in a manner sufficient to allow future surveyors to retrace.
Chair Shields entertained a motion to revise BP 1005-4 to include an item “C” to provide instructions in cases where a survey exhibit is applicable. Discussion ensued. A vote was taken. The motion to revise BP 1005-4 was unanimously approved.

- **Survey Regarding Restructuring of PS Exam – NCEES Exam to be divided into five modules:**
  - Core professional surveyors’ exam
  - Boundary
  - Public lands surveying system
  - Mapping science
  - Incidental drainage design

Prior to beginning work to customize modules for surveying exams, NCEES has requested that each board review the module choices and make a determination regarding the likelihood of use of each module due to the particular needs of each state. Following discussion, a vote was taken to determine those in favor of the committee’s recommendations. Eight members were in favor of the recommendation and one member voted against the recommendation. The recommendation was approved.

The committee will recommend to NCEES that for North Carolina, the core professional surveyors’ exam module, followed by either the boundary module or the mapping science module, is essential. The committee will not recommend that the public lands surveying system module be required for North Carolina land surveyors. Although not being recommended as an essential exam module, for the incidental drainage design module, the committee is exploring the need for a separate module or whether, for North Carolina, it would be more practical to integrate key incidental drainage design questions into those modules being recommended for North Carolina.

For the foreseeable future, North Carolina will continue to have a state specific exam.

- The committee reported, as an informational item, regarding a question from a surveyor concerning data received from an external source. In a situation where “surveyor 2” receives, from an external source, raw topographic data gathered by “surveyor 1” and is tasked with creating a digital terrain model; what certification should the used by surveyor 2 for the digital terrain model? The committee determined that a field check of the model is required before surveyor 2 can certify that the points on the model meet the 95% competency requirements, but that other factors must also be considered. Discussions are continuing.

- The committee reviewed Mr. Tuttle’s completed responses to address licensee items from the last meeting’s review list.
