Mr. Zoutewelle gave a historical overview of the issues that have resulted in the efforts to modify the PS exam structure, explaining the goal of eliminating or greatly reducing the state specific surveying...
Consolidation of the exams was considered. The five new divisional exams are being considered focus on (1) core surveys, (2) PLS, (3) boundaries, (4) mapping sciences, and (5) incidental engineering.

d) NCEES – Engineering Licensure Task Force

Mr. Ritter gave a historical perspective regarding current practices. The topic was discussed in detail. The need to solve the problem of mobility while also ensuring rules and laws specific to North Carolina were preserved were considered. Education, exam, and experience were noted to be the methods to ensure core competencies. Tiered licenses, exam costs, the NCEES licensure model, and the environmental focus of the new generation of engineers were topics discussed.

e) Settlement Conferences and Board Meetings by Zoom Discussion

It was noted that factors such as multiple and complex exhibits seem to make the use of Zoom for some settlement conferences cumbersome. As long as the option is not abused, Board members are afforded the courtesy of Zoom or in-person participation for Board Meetings.

The Board engaged in extensive discussion regarding the use of copyrights on surveys. They discussed the subsequent reliance on existing plats, the need to secure a current survey in case conditions have changed, indiscriminate use and public protection. There was agreement that the surveyor has a reasonable right to control reproduction of his documents while the purchaser should also be able to use the survey for purpose solicited without fear of copyright violation. The surveyor’s concern as to verifying that a survey actually is his or her survey and has not been altered is a valid concern. These concerns are to be addressed in upcoming article. Board Members will review article.

4. NCEES – Executive Director

Mr. Ritter reminded the Board that he, Mr. Care, and Mr. Benton were to attend an NCEES meeting in New Orleans; however, he informed the members that the trip was canceled. Chair Logsdon and Mr. Ritter will participate in an NCEES webinar following the Board Meeting today. All Board Members are invited to sit in but not required to. Mr. Ritter mentioned that Chair Logsdon has been provided with a method to vote on issues during the meeting. He explained that NCEES has various committee issues that member boards are requested to provide their input. Currently, one such issue comes from NCEES’ Exam Policy Committee (EPC). Specifically, there is a vote regarding the structural engineering exam, the last exam given by NCEES in paper and pencil format. This exam is not given frequently when compared to other exams. Further, there are states that have no participants to sit for the SE exam but, for those states that do require the SE exam, they have higher numbers. The EPC proposes to regionalize the SE exam reducing from 55 to 16 testing jurisdictions and waiving the state requirement, for those states who have such a requirement. Richmond, VA would be the regional location for North Carolina. After discussion and input from the Board Counsel who, speaking from the public protection standpoint, stated that there is a benefit to the public if more structural engineers took the SE exam and it is made as easy for the applicant to do so. Chair Logsdon expressed an understanding that each member state should be able to give each exam offered by NCEES within their borders but underscored that he had no strong opinion. Chair Logsdon took a poll, and the result of the poll dictates that the Board vote on the issue will be “No.”

Mr. Ritter noted that the individual and firm renewal rates did not reflect a negative impact.

6. Violations – Assistant Executive Director

Mr. Evans presented the Violations Report with data current as of July 14, 2021. He informed the Board that 80 cases had been opened for fiscal year 2021 and 63 cases had been closed. He provided information regarding the stage of completion of the 79 cases currently open and informed the Board that the average number of days from case open to investigation complete is currently 30 days. Mr. Evans noted that there was a slight decrease in the number of surveying cases. In addition, Mr. Evans informed the Board of the breakdown and percentages of non-licensed cases for both engineers and surveyors. He also reported the number of respondents with prior cases. Chair Logsdon noted that there are no statutory exceptions or authority to waive. After discussion, Mr. Care made a motion to deny the request. The motion was seconded by Ms. Moore. A roll-call vote was taken. All voted yes, except Mr. Fairbanks.

Mr. Ritter updated the Board regarding the hearing that was initially scheduled for today. The respondent cancelled his request for a hearing and instead accepted the earlier settlement conference recommendation. The settlement conference recommendation was approved on the consent agenda. He noted that there is another respondent with a potential hearing. He is not currently licensed but, if prompted, the hearing would likely be in December.

Mr. Ritter noted that the Board’s newsletter is planned for November. Mr. Care, Chair Logsdon, and Mr. Benton are reminded of the need to finalize a news article.

Mr. Ritter noted that he and Mr. Hoyle participated in the ACEC and the PENC meetings. Mr. Hoyle noted that Mr, Ritter gave excellent presentations at both meeting. Mr. Ritter plans to go to Blowing Rock for a meeting on Friday.

Mr. Ritter informed the Board that Mr. Zoutewelle presented, and others sat in on the Colonial States Meeting where the dominant topics discussed were surveying exam and modules, and the need to update the mapping science exam. Brief discussion ensued. Mr. Logsdon mentioned that there was a North Carolina resident that took the mapping science exam and passed the exam. There have been few requests to take the exam, often with multiple years between requests. He mentioned that the exam has been historically underutilized which contributes to hesitancy for various boards to obligate funding. Mr. Ritter gave a historical prospective of the two types of PS exams and explained how the traditional type did not include software-based components such as photogrammetry, use of drones, and GIS. The secondary PS exam has been available for
approximately 15 years and the request to take the exam is noted as only the second such request within that time period.

Discussion ensued regarding the Annual Conference in New Orleans. It was reiterated the previous determination that Mr. Zoutewelle will attend as Zone Vice President, and Mr. Ritter and Mr. Benton also to attend. Mr. Logsdon informed the Members that an additional slot was added and suggested that Mr. Care attend. Mr. Care agreed.

3. Committee Reports – Committee Chairs

Engineering Committee – Chair Fairbanks

New Business

A. Digital Signatures – Process change recommendation from J. Brad Pickett, PE. The topic was discussed at length and resulted in several action items for Board Counsel, David Tuttle, as detailed below:
   - Provide guidance at the March meeting regarding the feasibility of a change to the interpretation in lieu of a rule change.
   - Gather feedback from the Surveying Committee on the topic.
   - Contact Florida and Virginia Boards to confirm requestor’s interpretation of the rules of those two boards.

Mr. Fairbanks asked if Mr. Tuttle and Mr. Evans had any clarifications. Mr. Tuttle confirmed his agreement with the summary.

B. Informational item from James A. Lane, PE, Re: Wood Truss Engineering. – Item was not covered due to time constraints.
Surveying Committee – Chair Zoutewelle

New Business

A. Adobe Digital Signature – Committee member Mike Benton brought in a sample FEMA Flood Elevation Certificate for committee consideration. The form, an electronically fillable version of the official FEMA form, had been generated using Adobe software, and included the ability to digitally sign the completed document with a digital signature process which created a date and time stamp. The software failed to meet the standard of Board Rules for a valid electronic (digital) signature.

B. State Specific Exam Result Information – The exam is now electronic with pass/fail rates comparable to the pencil and paper version. In addition, the application provides useful and easily accessed data. Mr. Logsdon expressed his appreciation for the efforts of Mr. Ritter and Mr. Mazanek.

C. NC Surveying Data – Mr. Zoutewelle informed the Board that the committee discussed survey data provided to Senator McInnis of Richmond County. He noted that Mr. Ritter would cover the topic in more detail later in the meeting.

D. Digital Signatures – This issue was brought to the Surveying Committee from the Engineering Committee for consideration. Mr. Zoutewelle expressed the views of the Surveying Committee, saying that the members were sympathetic with the challenges but recognized that the volume of work affected by the process in the engineering profession was far greater than that encountered by members of the surveying profession. In light of such differences the Surveying Committee looks forward to participating in discussions on the issue but defers to the Engineering Committee to take the lead.

CPC Committee – Chair Salloum

In response to Chair Logsdon’s request for confirmation that the committee did not meet, Ms. Salloum confirmed that the committee did not meet and anticipated adding the newly appointed member to fill the open committee position.

4. NCEES – Executive Director

Mr. Ritter shared an NCEES Emeritus/Associate Nomination Form for former Board Member Bobbie Shields who remains active on some NCEES committee activities. Mr. Benton made a motion to approve the retroactive nomination form for signature; Mr. Zoutewelle seconded the motion. A vote was taken, and motion was unanimously approved to nominate Mr. Shields as an emeritus member of the Board.

Mr. Ritter stated that he and Chair Logsdon attended the Board Presidents Assembly, which was held Friday, February 5, 2021. The meeting format was via Zoom from 1-4 p.m. Providing a brief summary of relevant information garnered from the meeting, Mr. Ritter informed the Board that there will be no April Zone Meeting; any other zone meetings will be held by Zoom. Zone related committee matters will be conducted by podcasts. Three podcasts are scheduled to occur consecutively, each month beginning with March. Mr. Ritter will update the Board following each podcast.

Mr. Ritter updated the Board regarding the efforts of Board Member Zoutewelle in his efforts to secure the office of NCEES Vice President and invited others to participate in soliciting votes. Mr. Zoutewelle, through his work with the NCEES, informed the Board of some recently planned interim zone meeting activities which includes a new member activity and a social event planned for April 14th.

5. Board Secretary Report – Board Secretary and Executive Director

Mr. Hoyle, after accepting the role of Board Secretary, worked with Mr. Ritter and staff to create an updated summary of the Board Secretary duties which reflects, among other things, recent electronic handling of some of the duties. Mr. Ritter advised the Board that the review revealed current language which needs to be updated via statute. The recent updates will be part of the training for future Board Secretaries.
Mr. Ritter gave a more detailed review of matters of Fiscal Year 2020 and expectations for Fiscal Year 2021. Further, Mr. Ritter advised that the Board’s annual audit had been conducted. He stated that the Board had received a clean audit and that detailed results will be reported at the March or May Board Meeting. Mr. Ritter noted that the Board enjoyed a standard renewal year even amid the Covid crisis. Regarding renewals, Mr. Ritter stated that the Board has set a goal of a 100% online renewal process. Currently 94% of the renewals were completed online and staff will continue efforts to reach the 100% goal. Mr. Fairbanks asked about Board financial strategies for the upcoming fiscal cycles since it appears the Covid virus may be around longer than expected. Mr. Ritter responded by noting the Board has always used a conservative spending model and has no planned large-scale projects that would impact the Board’s ability to maintain this spending model for the foreseeable future which should protect the Board’s viability in the event the virus remains an active issue and causes a drastic reduction in revenue during the foreseeable future.

6. **Violations Activity** – Assistant Executive Director

Mr. Evans presented the Violations Report with data current as of February 10, 2021. He informed the Board that 18 cases had been opened and 17 cases closed during fiscal year 2021. Mr. Evans noted that during the previous meeting, Mr. Benton requested that going forward the report include more information regarding non-licensed cases. Mr. Evans provided details from 2020 since 2021 data only reflected a couple of cases. He noted that the data revealed that the vast majority of the non-licensed cases were attributable to non-licensed engineering firms. Additionally, he provided information regarding the stage of completion of the 82 cases currently open as of February 4, 2021 and informed the Board that the average number of days from case open to investigation complete is currently 99 days. Mr. Evans informed the Board that as of February 4, 2021 there are 34 cases in various stages of active investigation. Members briefly discussed actions initiated by former employees and the topic of upcoming Board hearings.

7. **Applications** – Director of Business Licensure

*Eastern Engineered Wood Products, Inc.* has requested permission to obtain a certificate of authority using their legal name. Mr. Mazanek explained the details of the request. Following discussion, Mr. Benton made a motion to approve the issuance of a non-objection letter in the company’s legal name. Ms. Salloum seconded the motion. Following discussion, the Board voted, and the motion was unanimously approved.

*Duncan Land Surveying* has requested licensure as a non-exempt proprietorship. Mr. Mazanek explained the details of the request and historical data regarding the Board’s prior action for a substantially similar case. Mr. Benton made a motion to approve the request for licensure. Ms. Salloum seconded the motion. Mr. Zoutewelle questioned the statutory considerations. Mr. Mazanek and Mr. Tuttle responded by summarizing the requirements of the related Board rules and assured the Board that the request did not fall outside the bounds of the statutes. The Board voted and the motion was unanimously approved.

*Pharis Partners, PLLC.* Mr. Theodore E. Landis, Jr. has requested to form a new company and name the company “Pharis Partners, PLLC.” The origin of the name does not do fall within the acceptable Board Rules for including a name or names in a business title. Mr. Landis has requested an exception from the Board. Following extensive discussion and staff input from a historic perspective, Mr. Benton made a motion to approve the requested exception. There was discussion and input from Board Counsel, David Tuttle. Mr. Tuttle gave his opinion from a legal and interpretive perspective. Mr. Benton again motioned to approve the business name. Ms. Salloum seconded the motion. Additional discussion ensued. Board Chair Logan gave an example of a scenario that could lead to a nefarious outcome but expressed his belief that the particulars of this request would not lead to public confusion. Mr. Care expressed concerns regarding the Board’s ability to police every instance. Mr. Tuttle summarized his interpretation of the discussion and the mandate to protect the public. He noted that there are occasions when the need to protect the public seems to intertwine with efforts to protect the licensee but, notes that the overarching objective is always to protect the public. Mr. Ellington gave an example of an occurrence, personally known to him, wherein the naming convention was part of an intentional attempt to deceive the public. He expressed his view that, although the Board is limited in its ability to protect in every case; there are other legal remedies if the Board’s decision is challenged. Mr. Ellington invited Mr. Tuttle to give his comments. Mr. Tuttle stated that, although he agrees with many points discussed, there are clear distinctions between what the Board allows and does not allow and fortified the notion that entities cannot view the Board’s decision as the ultimate defense. Mr. Zoutewelle informed the
Board of the results of his research performed concurrently with the Board meeting and topic discussion. He reported that his efforts did not result any new information that would encourage the conclusion that, in this case, the name would cause public confusion. Mr. Benton again reiterated his position with respect to personal liberties and naming conventions. Mr. Logsdon called the question. A vote was taken and the motion to approve Mr. Landis’ use of the name Pharis Partners, PLLC was unanimously approved.

8. Old Business – Executive Director

Mr. Gary Thompson, a past Board Member, has requested that the Board write a letter endorsing his reappointment to the National Geospatial Advisory Committee. Mr. Zoutewelle, noting Mr. Thompson has a lot of relevant expertise and connections with other professionals across the nation, made a motion for the Board to approve a letter of endorsement for Mr. Thompson’s reappointment. Mr. Fairbanks seconded the motion. A vote was taken, and the motion was unanimously approved. Staff is instructed to prepare the letter.

9. New Business – Executive Director

Mr. Ritter explained the process used when the Board utilizes the option to have a disciplinary case heard by an administrative law judge. For the benefit of newly appointed Board Members, he gave a brief general history of a case for which a current recommended decision will be heard at the March Board Meeting and provided details of how the Board will determine if the recommended decision is accepted or modified. Mr. Ritter informed the Board that the March Board Meeting will be one day. In response to the question as to advance opportunity to review, Mr. Tuttle confirmed that generally Board Members are allowed to have the content in advance of the meeting; however, he cautioned that they must not discuss the matter with anyone prior to the meeting. Chair Logsdon and Mr. Ritter will sure up the mode of presentation and relay.

Mr. Ritter informed the Board of two legislative matters. He reminded the Members that the Board is not allowed to lobby or otherwise be proactive on legislative matters. The first matter concerns a PE who owns an engineering company near Charlotte. Mr. Stone is a previous member of the House but is now a private practitioner. Mr. Stone reached out to Mr. Ritter and other members of the Board staff in an effort to gain the support of the Board to make changes to N.C.G.S. 55B. Chair Logsdon gave additional information regarding the statute and the ownership requirements mandated by N.C.G.S. 89C. Chair Logsdon summarized his understanding of Mr. Stone’s view that North Carolina is being placed at a competitive disadvantage due to the ownership requirements for engineers and surveyors but, highlighted the relevance of the State’s legislative body’s historic posture and consistent stance regarding the combination of ownership requirements and license status across all regulated professions. Chair Logsdon stated that from his perspective, the issue is a public policy issue and feels that the Board does not have a role in making the decision. Chair Logsdon acknowledged Board Counsel, David Tuttle. Mr. Tuttle confirmed his agreement with Chair Logsdon and noted that certain provisions of 55B were specifically enacted for the benefit of the engineering and surveying board and similar “design profession” boards. He gave specific examples which suggested that special allowances had been made in the past; however, he was in agreement with Chair Logsdon that additional efforts to secure benefits beyond those secured by the Physician’s Board were not likely. Chair Logsdon would like staff to generate a response to Mr. Stone. Mr. Ritter stated that he would draft a response. Mr. Tuttle informed the Board that if the General Assembly requested Board input it would be appropriate to weigh in. Chair Logsdon requested that Mr. Tuttle’s stipulation be included in the communication. Mr. Ritter relayed concerns expressed by Senator McInnis who is seeking to make changes to the educational requirements for land surveyors. A discussion of the benefits and pitfalls of such a change followed. There was agreement between staff and Board Members that such a change could potentially result in opportunistic endeavors that will eventually result in more complaints.
